MD. SYDUR RAHMAN

PROFILE

I am currently completing the 10th semester of my B.Sc. in Computer Science & Engineering, excluding an internship at the American International University of Bangladesh (AIUB). My major area is "Software Engineering". I'm seeking a career chance for getting ready to work in the IT sector soon. I keep developing my programming skills and learning new applications and technologies.

SKILLS

- Problem Solving
- Programming Language (C++, C#, Java, PHP, ASP.net, JAVA SCRIPT, CSS, HTML
- Database Management, MySQL Server
- MS Word, PowerPoint, Excel
- Leadership
- Good communication Skills

EDUCATION

BACHELOR OF SCIENCE

American International University of Bangladesh

CGPA : 3.62 (Ongoing)

Passing Year : 2023

HIGHER SECONDARY SCHOOL

IDEAL College, Dhanmondi

GPA 3.75

Passing Year : 2019

SECONDARY SCHOOL

Motijheel Govt Boys' High School

GPA 5.00

Passing Year : 2017

EXPERIENCE

- **CISCO – IT Essentials**
  - I've successfully achieved student-level credentials by completing the IT Essentials course.

🔗 https://github.com/Razi-Rahman/Cisco-IT-Essential-Certificate/blob/main/MDSYDURRAHMAN-ICS_Spring_19_20-certificate.pdf

  - I have completed 1st division of problem-solving on code forces.

🔗 https://codeforces.com/

  - Currently, I'm doing research on the "Assessing the effectiveness of Test-driven development in enhancing software quality" topic for thesis purposes.

PROJECTS

- **E-Commerce Management System**

  Used mySQL Database server, HTML, PHP, Javascript, CSS language to this project based on Web Technology Course.

  🔗 https://github.com/Razi-Rahman/E-commerce-management-system.git

- **Courier Management System**

  Using basic Java. It's a console application based on the knowledge of the Object Oriented Programming-1(Java) course.

  🔗 https://github.com/Razi-Rahman/Courier_Management_System.git

- **Village View (Graphical Interface)**

  Using C++-based graphical view project. It's a c++ OpenGL program project.

  🔗 https://github.com/Razi-Rahman/Village_View_Comuter_Graphics.git

- **KFC Management System (MySQL Server)**

  This a database SQL server-based project.

  🔗 https://github.com/Razi-Rahman/KFC_Management_Database_SQL_SERVER_project.git

- **Zero Hunger (asp.NET)**

  This is an asp. NET-based project. Basically used advanced C#, HTML, JAVASCRIPT, CSS, mySQL database server in this project
